

2XANADU.COM
COMING SOON!

New site! and New team! coming soon... We need your LOVE 

H o m e b o u t

Since its conception in 2006, 2xanadu has stormed its way through project after project, relentlessly pursuing its two main objectives: high-end creative concepts and design, and client satisfaction. Having registered itself as a company in the beginning of 2009, 2xanadu has shifted into top gear, expanding its repertoire beyond its previous range of skills. These include not just Photography, Illustration/Design, Motion Graphics and Film but also PR & event management and is currently dedicated to bridging the gap between western organisations and the Chinese market.

The company has already pushed the envelope for many a client since its debut, and continue to make its mark across the globe in places such as Paris, Hong Kong, China and Dubai.

At 2xanadu, they're on-point, on-task and online. They don't just take you places, they MAKE the places others want to get to. They're cutting-edge, sharp as a knife and ready to slice and dice any project you can think up.

Just finished a very simple illustration for CMS last week, it may expose in a show in Taiwan very soon. We are currently working on a graphic for TOAM " **The Outdoor Advertising Monitoring Company**" Looking great! almost there and then going to move on to their branding brief.

We have lots of things and happens coming in the new year! Especially looking forward to begin the design for **LUMA Bike - 2xanadu x Mcfaul City Bike** project...

Busy time but very exciting!

We are currently in discussions to produce some custom made illustration designs for Luma sports bike gear including racing jerseys, racing bike frames, helmets, fixed gear bike frames etc.

Recently we have been looking for more designers to collaborate with on this project. Just confirmed yesterday that McFaul studios are interested to get involved.

The concept of using illustrative designs on bike frames is because cycling is not just a sport, cycling is an art.

This could be a very interesting challenge for illustrators.

Our wall illustration designed for Focus Bike in Taipei Racing Bike Show 2009 in Taiwan.

Focus Bike is one of the major sponsors of a professional cycling team " Team Milram". The only German ProTour Team confides a total of 17 German pros in 2009. Further more Team Milram rides - for the first time in ProTour history - a german bike, the FOCUS Izalco Team. Team Milram is aiming to provide more surprises in the Peloton - through outstanding performances on the one hand and friendly appearances on the other. Race for race Team Milram intends to thrill people and win them over with its determination and its team spirit.
